

COMPUTER GRAPHICS ARTISTS: MEET THE CHALLENGE OF TWO_BIT ART

Computer Graphics artists at SISEA are invited to take part in an event that is meant to inform the population of Groningen of the meaning of Electronic Art. On a roof adjacent to the Doelen Hotel on the Grote Markt, right in the middle of the city center, there is a very large electronic bulletin board. This bulletin board is used for advertisements and announcements. In cooperation with AVTEL, SISEA has permission to use this bulletin board to show computer graphics artworks, created exclusively for this bulletin board. The results will be photographed and the photo's will be sent to several trade magazines after SISEA, as well as to the artists.

Artists are invited to make a picture that will be on show on the bulletin board during one whole day in the week of November 12-16. The picture is to be created on an IBM PS2/80 machine located at SCAN. The program is a simple paint program. You have the following limits:

Resolution: 220 x 126

4 Colours: Red, Blue, Green and White.

If you are interested, please contact SCAN (138343 or 138160) or go to the registration desk. You will want to talk to Cindy Vermeulen. If she is not available, just leave your name and the hotel where you are staying. We will contact you.
